

# Class of 1995

## Juniors

As their final year approaches, the junior class looks back on the year before. Many friendships have been made and broken, many memories have been stored away to recall in years to come.

We enter this final year expecting it to be the end of the beginning. This is the year to cement those friendships, collect and save all the lasting moments that have drawn us closer together, year by year.

# IN SPARE TIME

## "GETTING INVOLVED"

If you have some spare time, why not get involved in clubs? Here at North Baltimore High School there are clubs for the students to get involved in. Starting out in a club is one of the easiest especially since the teachers are generally the advisors.

Listening to daily announcements at the beginning of the year can tell you where to sign up to join. Asking the guidance counselor may also help you to know what clubs you can get involved in.

Many of the clubs require a lot of after school time and energy. There are a lot of activities that the clubs are responsible for. The Science Club is responsible for the science fair, FHA is responsible for the carnation sale for Valentines Day, and the publications staff is responsible for putting together the year book and the school paper, Tiger Talk.

These are just a few of the clubs and activities that they are responsible for. If you see yourself with a lot of spare time on your hands, check into some of these clubs. You might find out that you enjoy them.
