## Class of 2012

### A Fresh Start

### Little Fish in a Big Bowl

When asked, the 7th graders said this year was filled with fun and frustration. We started the year not really sure of what to expect. "I was afraid upper classman would pick on us and beat us up," Zachary Lucas said. Many students agreed that having classes at the Main Building was better than classes taken at Powell Elementary, even though it was easier to get a detention. The amount of homework assigned increased from what we had to do last year, but we had our own desk, our own lockers, and we got to chew gum. Study Table was new to us this year. Students participating in sports had to maintain a grade point average of 2.5, or they were required to attend study table right after school from 2:45 -3:15, Monday through Thursday during the season. "I didn't like the fact that I had to attend study table even though I got all A's," Luke Garner said, "because the wrestling coach said we had to." Junior High Homecoming was the highlight of the year for our class. We love to dance! We all agreed that we wish we had more dances and social activities throughout the year. All in all, this has been a good first year at the Main Building, and we look forward to the journey we will take through the next 5 years when we are seniors. Go Class of 2012!

# Class of 2011

## An Upward Spiral

It was the eighth grade's last year in the junior high hallway. While most students were excited about being freshmen, some were a little nervous. "I feel like I'm growing up too fast!" Brianna Ferguson commented. While that may seem like it was true, the year actually progressed very well. With the dodgeball tournament, a last junior-high homecoming dance, and the fun sports to participate in, how could this class not have gone out with a bang? They'll miss having the seventh graders look up to them, reading everyday, and their favorite middle school teachers. But they'll gain more social perks like dances and pep rally participation. The class of 2011 will definitely continue their legacy of an "upward spiral" all through their high school years.
